

# P40 -Bobath Plinth

This Bobath Therapy Couch with electrically powered height adjustment and backrest angle adjustment in a hard wearing upholstery, is an impressively wide therapy couch, with a much higher than standard safe working load of 260 kgs (41 st), allowing it to comfortably and safely accommodate both the therapist and the patient.

Bobath therapy is internationally recognized as being a very effective therapy for children with all types of Cerebral Palsy, regardless of their accompanying disabilities or age, and has techniques that traditionally require both the therapist and the patient to be on the couch. With their wide treatment surfaces and high lifting capacity, Bobath Therapy Couches are the ideal equipment solution for clinics, hospitals and medical centres offering Bobath therapy.

The easy to operate powered height adjustment of the therapy couch offers the therapist an excellent height range, allowing the treatment surface to be set as low as 460mm (18") and as high as 1000mm (39"), ensuring the perfect level can be achieved for each individual treatment. This couch also features an easy to operate electrically adjustable backrest that can be adjusted from horizontal through to 75 degrees, improving both comfort and safety

Colours available

All coverings are vinyl and washable, being fire retardant to BS 7176, BS 5852 part 2 (crib 5) and display excellent levels of wear. ALL include patented anti microbial technology proved effective in inhibiting the growth of E-Coli and Staphylococcus Aureus (MRSA), and all are suitable for cleaning and disinfecting with NaDCC based products.
