

# The Surfer Bather

Bathlift

This popular, powered, elevating bath lift for children minimises moving and handling risks to therapists, parents and carers alike.

The bath lift is operated by low air pressure using the battery powered Airflo Mk3 power source.

The Surfer Bather Bath Lift will make bathtime fun again for those parents and carers who struggle to lift the child into and out of the bath.

The Surfer Bather will hold the child securely in the seat both during the transfer into and out of the bath, and during the bathing process itself.

Length: 1170mm (46 inches) Width: 410mm (16 inches)

Maximum user height: 1350mm (4 foot 5")

Backrest adjustment: From flat to 70 degrees

Platform height 60mm to 430mm (2.5 to 17 inches)
